

Proactive Preparedness: Recovery is Easier if you are Prepared!

Dec 11th 2024
4:30 pm CT - 5:30 pm CT

[A Private Drinking Water Well](#)

In this webinar we will explore how best practices are part of a greater strategy to assist private well owners with emergency preparedness. Furthermore, we will explore how using best practices and additional directly targeted processes to prepare for future disasters and emergencies will greatly lessen the impact and decrease the time to full recovery for private well owners.

- *What information can speed up recovery?
- *What else can I do to be prepared?
- *What importance does water quality testing make?

Register today to get your link and we will do the work to keep you reminded!

This training is at no cost and is supported by a grant with EPA

The purpose of this webinar is to assist stakeholders and well owners by providing them with common best practices well owners can complete not only protect their drinking water on a daily basis but also be better prepared for emergency and disaster situations.
