April 11, 12:00pm – 5:00pm CT

Midwest Assistance Program
serving rural communities since 1979
RCAP NETWORK MEMBER

Description: This workshop will give city officials and water system operators who need to collect lead and copper samples in 2023, guidance on updating lead and copper sample site plans, sampling instructions, notification requirements, and follow-up monitoring in accordance with the Lead and Copper Rule. There is no cost.

Agenda

Each workshop is 4 hours in length of online instruction. Sessions 1 and 2 are each 2 hours with a break in between. By completing all training, participants can be granted 2 CECs.

Session 1:	Sources of Lead and copper, EPA Lead and Copper Rule Overview, monitoring requirements, sample site selection, sample site plan, and sampling requirements.
One Hour Break:	There will be a timer on the screen if you wish to stay logged in.
Session 2:	How to read the results, notification, action level exceedance (ALE), what to do after an ALE, water quality parameters, follow-up samples, and consumer confidence report.

Pre-registration is required:
