

MIDWEST ASSISTANCE PROGRAM, INC.

JOB DESCRIPTION

PROJECT MANAGER/TECHNICAL ASSISTANCE PROVIDER

Program Description: The program mission is to assist rural communities to improve their environment, quality of life and be self-sustaining by providing technical assistance and training relating to water, wastewater and solid waste. The Midwest Assistance Program, Inc. (MAP) is a non-profit organization serving the nine Midwestern states of Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, North Dakota, South Dakota, and Wyoming. MAP is a partner of the Rural Community Assistance Partnership, Inc. (RCAP).

Supervised by: Regional Field Manager

Classification:

Classification is based upon is based upon experience and/or certifications.

Class IV Starting Salary: \$40,000 (Entry-Level Experience)

Class V Starting Salary: \$50,000 (Intermediate-Level Experience)

Position Summary: The Project Manager/Technical Assistance Provider (PM/TAP) generally works in one of MAP's nine states. The PM/TAP will work with project communities and utilities to provide guidance, training and technical assistance to improve or develop water, wastewater, solid waste systems and other related programs or services.

Primary responsibilities include: project management; provide technical guidance; plan and/or deliver training; perform outreach and networking; program development; perform research and analysis; general administrative duties; contract management/mediation; assist with codes/ordinances/grants and grants management; promote system operational standards to meet regulatory compliance; identify cost savings and promote system longevity/sustainment; and assist communities with drafting of by-laws, policies, procedures and rate setting. Work performed is generally in the capacities of technical, financial and managerial.

Principal Accountabilities: Specific job goals, objectives and tasks established for each employee are part of the annual evaluation and work plan process. Examples of responsibilities and duties include, but are not limited to the following:

- *Conduct assessments* – complete a TMF assessment to determine the real needs of the community/utility. Work with communities to develop a scope of work to include

task, time and resources; determine client eligibility for services; coordinate with other MAP staff working in the project area and other technical assistance providers to perform work; follow-up to ensure scope of work is completed.

- *Provide technical assistance* - deliver direct on-site and remote technical assistance and service to clients. Technical assistance may include any or all areas of technical, managerial, and financial guidance, training and assistance to include project planning and management.
- *Training* - plan, prepare, deliver and report technical, managerial, or financial training at various conferences, institutes, workshops, and clinics or for individual communities.
- *Outreach and networks* - coordinate and participate in rural development networks and associations; form and maintain links between agencies and/or other networks; perform facilitation and mediation for and between clients and funders; maintain current information on environmental programs; policies and regulations;
- *Program development* - participate in development of funding strategies, initiate contacts and identify opportunities; determine scope of work with funders in accordance with leadership direction and guidance.
- *Research, analysis and publications* - remain current on applicable government regulations and policies; comment on the impact of proposed regulations and policies; analyze rural development issues and needs; develop policy and technical papers, articles and manuals for MAP and other publications.
- *Administrative* - assemble and lead MAP/RCAP project teams; prepare written reports and documentation of activities; maintain contact with funders; respond to inquiries as needed; complete database reporting of work in a timely and accurate manner.
- *Contract management* - develop and maintain project work plans.
- *Other activities as assigned.*

Job Qualifications:

1. Bachelor's Degree preferred, but not required (Qualifying experience is equally important to education preferences).
2. Any combination of applicable experience in environmental policy management, water, wastewater or solid waste facilities development or planning.
3. Advanced personal computer skills are critical to success. Must be familiar with Microsoft Office, Outlook, Word, and Excel. Should also be familiar with Adobe Pro.
4. Must be able to communicate effectively in writing.
5. Financial and Managerial certifications, training or experience is helpful.
